**Abatement Technologies Introduces New  
Mobile Decontamination Shower.**

Suwanee, GA. Abatement Technologies has announced the release of the new EASY UP™ 4000, an economical and user-friendly modular decontamination shower designed for contractors.

When not in use, the top and bottom frames act as a lightweight carrying case, with a latch closure. The rest of the parts fit inside. The entire kit weighs just 41 pounds, almost 25 pounds lighter than any other metal shower.

Dave Willyard, VP of Sales for Abatement Technologies said: “The EASY UP decontamination shower really lives up to its name with its light weight, ease of transport and fast, one person set up.”

Abatement Technologies, Inc. has remained the most trusted name for abatement equipment for over 21 years.

For more information on EASY UP or other Abatement Technologies abatement products call 800-634-9091, or visit [www.abatement.com](http://www.abatement.com)
