

August 27, 2004

**To:           Prospective Customers for Abatement Technologies  
              HEPA-AIRE® Portable Air Scrubbers**

**Subject:   Nationally Recognized Testing Laboratories (NRTL) Approvals**

This letter is to confirm that Abatement Technologies' HEPA-AIRE® Portable Air Scrubber models PAS600, PAS1200, PAS1800 and PAS2400 have been independently tested and certified to meet electrical safety requirements under Underwriters Laboratories (UL) Standard 507 for electrical fans and ventilators, and under the Canadian Standards Association (CSA) standard # C22.2 No. 113-M1984.

Testing was conducted by Intertek Testing Services NA, Inc., an accredited Nationally Recognized Testing Laboratory (NRTL) in conformance with OSHA Title 29 of the Code of Federal Regulations CFR Part 1910 (General Industry) and Part 1926 (Construction).

These safety certifications provide our customers with the assurance that Abatement's HEPA-AIRE Portable Air Scrubbers are designed and manufactured in accordance with the applicable electrical safety standards and regulations in the United States and Canada.

A handwritten signature in black ink that reads "David M. Shagott". The signature is written in a cursive style with a large, sweeping initial "D".
